Treats up to 30,000 gallons

What are we waiting for? Let's kill some algae!

Have leftover product?

Use as a preventative treatment, algae spores of any kind won't have a chance to bloom in your pool for the rest of the season. See directions for more details.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

- Test and balance water before using this product.
- To Kill Algae:**
 - Add a granular shock product; follow application directions on that product, allow filter and pump to operate for 1 hour.
 - Add 16 fluid ounces per 10,000 gallons directly to the pool in areas of heaviest algae growth and continuously operate filter and pump for 24 hours.
 - After 24 hours, thoroughly brush pool surfaces.
 - Wait at least 15 minutes after adding product before entering pool.
- To Prevent Algae:**
 - Add 8 fluid ounces per 10,000 gallons along pool edges while filter and pump are operating for the first week's application, then follow Once a Week directions.

Start-up/Opening:

- Add 1.5 fluid ounces per 10,000 gallons along pool edges while filter and pump are operating.
- Add more often after heavy rain, frequent backwashing or partial drain/refill.
- Wait at least 15 minutes after adding product before entering pool.

Once a Week:

- Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide.

STORAGE AND DISPOSAL: Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well ventilated area. Do not contaminate food or feed by storage or disposal. **PRODUCT DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: WARNING: Causes substantial, but temporary, eye injury. Harmful if swallowed. Harmful if inhaled. Do not get in eyes or on clothing. Avoid breathing vapors. Wear safety glasses or goggles. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.
FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **Have the product container or label with you when calling a poison control center or doctor or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.**

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.
ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

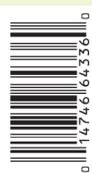

Note: Buyer assumes all responsibility for safety and use not in accordance with directions. Metals from source water, ionizers or poorly sequestered algacides have the potential to stain pool surfaces. Treat these problems with an appropriate metal stain preventative (chelating agent) before using this product.

ALGAEICIDE

DESTROYS ALGAE

FAST. EFFECTIVE. KILLS ALL TYPES.

ACTIVE INGREDIENT:
Copper (metallic)* 3.3%
OTHER INGREDIENTS** 96.7%
TOTAL 100.0%

* Derived from copper sulfate pentahydrate (CAS No. 7758-99-8)
** Contains polymeric polyacrylate and gluconate stabilizing agents

KEEP OUT OF REACH OF CHILDREN
WARNING

See back panel for First Aid and additional precautionary statements.

48 FL OZ (1.5 QT) 1.4 LITERS

TREATS UP TO 30,000 GALLONS!

Yuck! You've got a bad case of algae, don't you?

Don't know what type of algae you have or what algacide works best in your pool?

No problem.

I've got you covered.

Need it gone fast? I get results in 24 hours or less.

I take the stress out of any algae mess.

BASIC GREEN ALGAE

STUBBORN MUSTARD ALGAE

TOUGH BLACK ALGAE

- Most common type
- Free-floating, but may form on surfaces
- Can tint water green during blooms

- Yellowish dust/slime
- Fast-growing
- Clings to surfaces
- Needs algacide since it resists chlorine

- Black or green/blue spots
- Firmly attaches to surfaces with roots
- Forms protective crust
