

ALGICIDE PLUS

KILLS AND PREVENTS ALL POOL ALGAE TYPES

Including Black, Green & Mustard Algae
Treats 20,000 gallons
Money Back Guarantee

Results in 24 hours

ACTIVE INGREDIENT:

Copper (metallic)*:3.3%

OTHER INGREDIENTS**:96.7%

TOTAL:100.0%

*Derived from copper sulfate pentahydrate

**Contains polymeric polyacrylate and gluconate stabilizing agents

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See back panel for **FIRST AID** and additional precautionary statements.

SWIMMING POOL ALGICIDE AND ALGAE PREVENTATIVE

Algicide Plus is a highly effective, patented, non-staining algacide that kills and controls all types of algae in swimming pools. Algicide Plus is especially recommended for killing and controlling green, blue-green (frequently called black or spot algae) and mustard algae growths. This product is formulated for use in chlorine or bromine sanitized swimming pools of all surface and filter types.

IMPORTANT NOTES: 1) Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide. 2) Prior to the initial application of this product, test pool water for the presence of metals. If metals are present, apply a metal stain preventative per label directions. 3) When using other products, always follow directions for those products. 4) Full strength product will stain porous surfaces.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

PRIOR TO APPLICATION: 1) Ensure all equipment is working properly. If necessary, clean the filter system. 2) Adjust pH between 7.2-7.6. 3) Establish and maintain proper chlorine or bromine levels. In chlorine-treated pools, add stabilizer to establish a minimum level of 30-40 ppm of cyanuric acid to reduce the degrading effects of sunlight on chlorine residual. 4) Vacuum leaves and any other foreign debris from pool. 5) Brush visible algae thoroughly from the pool's surface with a surface-compatible brush.

TO PREVENT ALGAE: 1) Initially apply 8 fluid ounces of this product per 10,000 gallons of pool water with pump and filter operating. 2) Thereafter, for weekly application intervals, add 1.5 fluid ounces per 10,000 gallons of pool water. For two week application intervals, add 3 fluid ounces per 10,000 gallons of pool water every other week. Apply more often if pool volume is diluted by heavy rain, frequent backwashing or partial drain/refill. 3) Wait at least 15 minutes after application before entering pool.

TREATMENT OF VISIBLE ALGAE: 1) Add 1 lb. of Chlorinating Granules Plus or Shock with Clarifier or Vinyl Pool Shock per 10,000 gallons of pool water. Follow application directions on these products. 2) Allow to circulate for 1 hour. 3) With pump and filter operating, apply 16 fluid ounces of Algicide Plus per 10,000 gallons of pool water directly to the pool water in areas of heaviest algae growth. 4) Continuously circulate pool water for 24 hours. 5) The next day, thoroughly brush pool surfaces. 6) In cases of persistent algae, repeat brushing and application after 2-4 days. 7) The Chlorinating Granules Plus contains a built in clarifier/filtration enhancer to assist in removing dead algae.

STORAGE AND DISPOSAL: Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well ventilated area. Do not contaminate food or feed by storage or disposal. **PRODUCT DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Harmful if swallowed. Causes moderate, but temporary, eye irritation. Avoid contact with eyes or clothing. Wear protective eye wear (safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.**

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions. Metals from source water, ionizers or poorly sequestered algacides have the potential to stain pool surfaces. Treat these problems with an appropriate metal stain preventative (chelating agent) before using this product.
