WHY TO USE THIS PRODUCT:

This premium shock product is easy to use and performs multiple, important maintenance functions. Shock Plus effectively oxidizes during shock treatment organic contaminants that cause cloudy water, musty odors and eye irritation by utilizing advanced patented technology. This technology combines oxidizers, water clarifiers, flocculants and buffers to provide crystal clear water with no cloudy residue and without increasing pH like ordinary shock products.

Shock Plus is designed for use in all pool types by adding the product directly to the pool without pre-dissolving. Because it dissolves rapidly and performs multiple maintenance functions, this product works fast and effectively, allowing swimming to resume in as little as 15 minutes.* Shock Plus is ideal for both last minute and routine maintenance applications.

⚠ DO NOT mix Shock Plus directly with any other shock products or pool chemicals, as violent reactions could occur. Shock Plus must be applied directly into the pool water. DO NOT pre-dissolve Shock Plus.

IMPORTANT NOTES:

1. When using other products, always follow label directions for those products.
2. As with other products, this product may promote metal stains on pool surfaces. Always check water for metal content and if present, remove metals with a stain and scale inhibitor prior to the addition of this product.
3. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate Pool Time product specifically formulated for those purposes.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

BEFORE YOU BEGIN:

1. Make sure all pool equipment is working properly.
2. Backwash filter following manufacturer's directions.
3. Check alkalinity, pH and calcium hardness with a test kit. Adjust alkalinity to 80 - 125 for plaster pools and 125 - 150 for vinyl and fiberglass pools. Adjust pH to 7.2 - 7.6. Adjust calcium hardness to 200 - 275 for plaster pools and 175 - 225 for vinyl and fiberglass pools.

NOW USE THIS PRODUCT:

Routine Maintenance

1. For small vinyl pools, with pump operating, apply 3.5 teaspoons of Shock Plus per 500 gallons or 1.3 ounces per 1,000 gallons directly into pool.** DO NOT pre-dissolve Shock Plus. DO NOT apply Shock Plus through skimmer or chemical feeding device as other chemicals may be present which could result in a violent reaction.
 2. Wait at least 15 minutes after product application before entering pool.*
 3. Operate pump and filter continuously for 4 to 8 hours after product addition.
 4. For best results, apply Shock Plus weekly as part of your maintenance routine.
- ** Use a clean, dedicated spoon to dose the appropriate amount of product into the pool. Keep the dosage spoon stored out of reach of children. 3 teaspoons equals 1 tablespoon. 1.75 tablespoons equals 1 ounce.

Additional Applications:

Wind, rain, increased water temperature and the number and frequency of bathers can cause cloudy water, unpleasant odors or eye irritation which may require additional application(s) of this product. Follow routine maintenance instructions.

***TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.**

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553. NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. **CONTAINER DISPOSAL:** Rinse empty container thoroughly. Discard in trash. Do not reuse container.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive: Causes irreversible eye damage. Do not breathe dust; may be harmful if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Causes skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling product. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substance. DO NOT pre-dissolve or add water to this product. Always apply directly into the pool. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container in open air or well-ventilated area. Flood container and area with large volumes of water. In case of spills, scoop up and place product in pool water, then flood spilled area with large volumes of water.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
