CERTIFECT® FOR DOGS
Rapidly starts killing ticks within 6 hours
Kills fleas, flea eggs & chewing lice

For Dogs & Puppies ONLY
8 weeks or older and
5-22 LBS
3 monthly doses

CERTIFECT® FOR DOGS

CERTIFECT® FOR DOGS

AVAILABLE THROUGH VETERINARIANS
READ ENTIRE LABEL BEFORE USE

CERTIFECT® for dogs rapidly starts killing ticks within 6 hours providing a convenient, effective treatment for all stages of ticks. **CERTIFECT®** kills fleas, flea eggs, flea larvae, prevents the development of all stages of fleas, and kills chewing lice, and all stages of ticks **ONLY** for dogs and puppies 8 weeks or older and 5-22 lbs.

ATTENTION !
Ne pas repiquer sur cette
partie de la tranche (moitié supérieure)

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **Read entire label and enclosed directions before each use. Follow all directions and precautionary statements carefully.**

Restrictions: Do not allow children to apply product. Use on dogs **ONLY**. Do not use on cats, rabbits or other animals. **DO NOT** use on dogs diagnosed with diabetes or heart problems. Consult a veterinarian before using on dogs that are medicated, debilitated, aged or obese. Your dog needs to be dry at the time **CERTIFECT®** is applied and remain dry 24 hours after application. **DO NOT** contact the treated area until completely dry. Verify that the applicator is empty after applying to your dog. Do not allow your dog to ingest this product. Do not apply to dogs weighing less than 5 lbs or younger than 8 weeks of age. Do not use more than one application per dog per month.

To kill all stages of ticks, fleas and chewing lice apply topically to the skin of dogs or puppies (8 weeks or older) as follows: *Open the child-resistant packaging according to the instructions found on the inside back panel of the carton. Hold applicator upright away from you and your dog's face, cut applicator tip with scissors to open. Place applicator tip through dog's hair to the skin level. Squeeze applicator, applying entire contents in two separate spots on the neck between the base of the skull and the shoulder blades where the dog cannot lick. Do not allow your dog to ingest this product. Do not allow product to runoff.*

Frequency of Application

A monthly application of **CERTIFECT®** kills ticks, completely breaks the flea life cycle and controls chewing lice infestations.

Research demonstrates that **CERTIFECT®** kills adult fleas (*Ctenocephalides felis* and *Ct. canis*), flea eggs, and flea larvae for up to three months.

CERTIFECT® also prevents development of all flea stages for up to three months.

Although **CERTIFECT®** can control fleas for up to three months, if there is a high risk of re-infestation or if the dog has fleas which may cause flea allergy dermatitis, a once monthly application may be needed.

CERTIFECT® aids in the control of sarcoptic mange infestations. Apply once per month for at least two months for the elimination of mites.

CERTIFECT® can also be used for the treatment and control of flea, tick and chewing lice infestations on breeding, pregnant, and lactating bitches.

Merial Limited
3239 Satellite Blvd.
Duluth, GA 30096-4640, USA
MADE IN FRANCE
EPA Reg. No. 65331-7
EPA Est. No. 65331-FR-2

Please call our experts at 1-800-660-1842 if you have any questions or comments about flea, tick and lice control or **CERTIFECT®**.

SIDE EFFECTS: Transient lethargy of variable duration and pruritus (itching) may occur with the use of this product. In very rare instances, certain sensitive dogs may develop skin irritation at the application site or other forms of dermatitis including pemphigus-like conditions (skin thickening, flaking skin). Should this occur, contact your veterinarian for treatment advice promptly and discontinue use of the product.

DO NOT USE ON CATS
Keep cats away from treated dogs for 24 hours. If applied to a cat, or ingested by a cat, contact your veterinarian.

CERTIFECT® aids in the control of sarcoptic mange infestations. Apply once per month for at least two months for the elimination of mites.

CERTIFECT® can also be used for the treatment and control of flea, tick and chewing lice infestations on breeding, pregnant, and lactating bitches.

Available Through Veterinarians

DO NOT USE ON CATS

CERTIFECT® contains fipronil, (S)-methoprene, an insect growth regulator (IGR), and amitraz. CERTIFECT® effectively targets all stages of ticks and fleas.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS and DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

For external use on dogs and puppies 8 weeks or older and weighing at least 5 lbs for small dogs, 23 lbs. for medium dogs, 45 lbs. for large dogs, and 89 lbs. for extra-large dogs. Individual sensitivities, while rare, may occur after using any pesticide product.

SIDE EFFECTS: Transient lethargy of variable duration and pruritus (itching) may occur with the use of this product. In very rare instances, certain sensitive dogs may develop skin irritation at the application site or other forms of dermatitis including pemphigus-like conditions (skin thickening, flaking skin). Should this occur, contact your veterinarian for treatment advice promptly and discontinue use of the product.

DO NOT use on dogs that have been diagnosed with diabetes or heart problems. Consult a veterinarian before using on dogs that are medicated, debilitated, aged or obese. Certain medications can interact with pesticides. Amitraz is a monoamine oxidase inhibitor (MAOI); therefore, people taking MAOI-containing medication must take particular care when handling this product. Call 1-800-660-1842 for assistance, Monday-Friday, 8am-8pm EST.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE: Do not use or store near heat or open flame.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment, or call 1-800-660-1842 for 24-hour assistance.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **Read entire label and enclosed directions before each use. Follow all directions and precautionary statements carefully.** Restrictions: Do not allow children to apply product. Use on dogs ONLY. Do not use on cats, rabbits, or other animals. Open the child-resistant packaging according to the instructions found on the inside back panel of the carton. Do not allow your dog to ingest the product. Do not apply to dogs weighing less than 5 lbs for small dogs, 23 lbs. for medium dogs, 45 lbs. for large dogs, 89 lbs. for extra-large dogs or younger than 8 weeks of age. Do not use two applications for dogs weighing more than 132 lbs. Do not use more than one application per dog per month. Your dog needs to be dry at the time CERTIFECT® is applied and remain dry 24 hours after application. Do not contact treated area until completely dry. Verify that the applicator is empty after applying to your dog.

FREQUENCY OF APPLICATION

A monthly application of CERTIFECT® kills all stages of ticks, completely breaks the flea life cycle and controls chewing lice infestations.

CERTIFECT® prevents ticks from attaching, and detaches ticks when applied to a dog with a pre-existing infestation. Do not apply more than once a month. Research demonstrates that CERTIFECT® kills adult fleas (*Ctenocephalides felis* and *Ct. canis*), flea eggs, and flea larvae for up to three months. CERTIFECT® also prevents development of all flea stages for up to three months. Although CERTIFECT® can control fleas for up to three months, if there is a high risk of reinfestation or if the dog has fleas which may cause flea allergy dermatitis, a once monthly application may be needed.

CERTIFECT® remains effective even after bathing, water immersion, or exposure to sunlight.

HOW SUPPLIED

For easy and convenient treatment, CERTIFECT® for dogs is available in sizes for small dogs and puppies ONLY 8 weeks or older and 5-22 lbs., medium dogs ONLY 8 weeks or older and 23-44 lbs., large dogs ONLY 45-88 lbs., and extra large dogs ONLY 89-132 lbs.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE. Store unused product in original container only in a cool dry place, out of reach of children and animals.

PESTICIDE DISPOSAL. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER DISPOSAL. If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent consistent with applicable law, buyer assumes all risk of use and handling of this material when such use and handling are contrary to the label instructions.

CERTIFECT[®]

FOR DOGS

Some tips and other information:

DO NOT USE ON CATS.

- ✓ Prevents ticks from attaching, and detaches ticks when applied to a dog with a pre-existing infestation.
- ✓ To successfully control ticks & fleas, all dogs must be treated with their own dose of *CERTIFECT*[®].
- ✓ Apply according to label instructions, ensuring the product is applied to the skin. It must be applied between the base of the skull and the shoulder blades where the dog cannot lick.

It may be helpful to remove the collar before application, so it doesn't absorb the product.

- ✓ Remember, your dog needs to be dry at the time *CERTIFECT*[®] is applied and remain dry 24 hours after application.
- ✓ Verify applicator is empty after applying to your dog.
- ✓ Even indoor dogs need tick and flea control because you or other dogs in the household may bring ticks and fleas into the home.

All stages of fleas

Chewing lice

BACK

CERTIFECT[®] FOR DOGS

Calendar reminder stickers

To ensure continued protection of your dog, use these stickers as a reminder to apply and re-purchase *CERTIFECT*[®].

After treating your dog for the first time, peel off the sticker and place on your calendar that day.

Place the remaining stickers on your calendar as a reminder to apply *CERTIFECT*[®] monthly. Don't forget to re-purchase!

**DO NOT USE
ON CATS**
