

LOOSEN CAP TO FILL RESERVOIR • DO NOT SQUEEZE BOTTLE WHILE POURING
ISABEL CRISTINA

LET'S DANCE®

CLEAR 'N' FRESH
Cleaner • Disinfectant • Deodorizer

FOR COMBS, BRUSHES, SCISSORS AND NON-POROUS SURFACES

Bactericidal • Staphylocidal • Pseudomonacidal • Salmonellacidal
Tuberculocidal • Virucidal • Fungicidal • Conductive
Kills Pandemic 2009 H1N1 Influenza A Virus (formerly called *Swine Flu*)

Active Ingredients:	
para-tertiary-Amylphenol	10.0%
ortho-Benzyl-para-chlorophenol	6.5%
ortho-Phenylphenol	6.0%
other ingredients	77.5%
TOTAL	100.0%

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin or on clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

In case of emergency call toll free 800-222-1222. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression & convulsion may be needed.

ISABEL CRISTINA

DANGER
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed. Avoid breathing (dust, vapor or spray mist). Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Applicators and handlers must wear: Longsleeved shirt and long pants, socks plus shoes, goggles or face shield, chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber and viton). Follow manufacturers' instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations: Users should: Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

PHYSICAL AND CHEMICAL HAZARDS: Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

CONDUCTIVE: This product has been tested by Hood Patterson-Dewar, Electrical Testing Engineers, for its effect on conductive flooring. The method used conforms to the specifications known as NFPA Standard No. 56A, published by the National Fire Protection Association, Second Edition, 1987. This product meets the requirement of NFPA Standard No. 56A.

STATE OF HAWAII
Department of Agriculture

ACCEPTED

LICENSE NO.

9791.6

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Precautions and Restrictions: Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Following application as a low pressure or high pressure spray, do not enter or allow others to enter the treated area until sprays have dried. Thoroughly ventilate entire closed area after fogging applications. Do not enter, allow other persons to enter, house livestock, or use equipment in the treated area until ventilation is complete and any liquid has been absorbed, set, or dried. For entry into fogged areas before ventilation is complete and the fog has been completely dissipated, all persons must wear the PPE, including a full-face respirator, required in the Precautionary Statement Section of this labeling for applicators and other handlers.

Product Information: Let's Dance® Clear 'n' Fresh Cleaner Disinfectant Deodorizer is a synthetic detergent with wide spectrum kill of gram positive and gram negative microorganisms, provides good cleaning and disinfecting in one operation, non-flammable and nonvolatile use dilutions and excellent solubility. This detergent system has been especially formulated to provide cleaning, wetting and penetration of soils and organic matter and easy rinsing of surfaces. Good foam is obtained at 1/2 oz. per gallon of water (1:256) to provide prolonged contact time. This product is for use when used as directed on ceramic and glazed tile surfaces, stainless steel, aluminum, chrome, galvanized metal, glass, and other non-porous surfaces such as finished wood, polyethylene, polypropylene, PVC (polyvinyl chloride), polystyrene, vinyl, fiberglass, viton, ethylene propylene, nitrile, acrylic and polyurethane. At 1/2 oz. per gallon of water (1:256) it is for disinfecting and cleaning surfaces in Homes, Hospitals, Medical Research Centers, Health Care facilities, Schools, Research Centers, Laboratories and other institutions.

Use Directions: This product is effective against all organisms listed at 500 ppm water hardness and 5% blood serum.

2

NOTE: This product is also effective against a number of organisms (identified in other panel) under more stringent conditions of 1,000 ppm water hardness and 10% blood serum.

1. To clean, disinfect and deodorize walls, floors, tables, restroom fixtures, exterior surfaces of drinking fountains, sinks, stoves, garbage cans, exterior surfaces of refrigerators, tanning beds and other hard non-porous environmental surfaces. Remove gross filth and heavy soil with a preliminary cleaning step prior to application of this product. Apply solution of 1/2 oz. of this product per gallon of water (1:256) with a sponge, mop, mechanical spray device or foaming apparatus, making sure that all surfaces are wetted thoroughly. Allow surface to remain wet for 10 minutes.

2. To clean and disinfect barber/beauty salon instruments and tools. Clean and disinfect such articles as combs, brushes, razors and scissors. Wipe articles clean and soak for 10 minutes in a solution containing 1/2 oz. of this product per gallon of water (1:256).

3. To clean gross filth or heavy soil on environmental surfaces prior to disinfection: Use 1/2 oz. of this product per gallon of water (1:256).

Hospital Disinfection Directions:

1. To clean, disinfect, and deodorize floors, walls, and other non-porous environmental surfaces: Use 1/2 oz. of this product per gallon of water (1:256). Apply with cloth, sponge, mop, mechanical spray device, making sure all surfaces are wetted thoroughly. Allow surface to remain wet for 10 minutes. For heavily soiled areas, a preliminary cleaning is required. Remove gross soil and proceed as above.

2. When completed: Rinse with clear water.

3. This product is an effective tuberculocide against *Mycobacterium bovis* in 10 minutes at 20°C when used on hard, non-porous inanimate environmental surfaces. Follow above directions, including removal of gross filth or heavy soil, prior to application of this product.

4. **KILLS HIV ON PRECLEANED ENVIRONMENTAL SURFACES /OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS IN**

3

health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 HIV-1 associated with AIDS.

Disinfection of Hard Non-Porous Surfaces in Whirlpool Foot Spas, Air-Jet Basins, "Pipe-less" Foot Spas, and other Circulating Spas:

After using the whirlpool unit or foot spa, drain and preclean the interior surfaces to remove heavy soil, making sure to clean under rim and in crevices. Remove screen and all debris trapped behind the screen. Preclean and rinse screen and inlet. Refill the unit with fresh water to just cover the intake valve. Add 1/2 oz. of this product to each gallon of fresh water added. Turn jets on for the 10 minutes contact time. Drain and rinse all surfaces with fresh water.

Disinfection of Tanning Beds: Preclean and rinse to remove heavy soil from surface. Apply a solution of 1/2 oz. of this product per gallon of water with a cloth, sponge, or mechanical spray device, making sure all surfaces are wetted thoroughly. Treated surfaces must remain wet for 10 minutes. Rinse with fresh water.

Special Instructions for Cleaning and Decontamination Against HIV of Surfaces/Objects Soiled with Blood/Body Fluids: Personal Protection:

When handling items soiled with blood or body fluids, use protective equipment such as disposable rubber gloves, gowns, masks or eye coverings. **Cleaning Procedures:** Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** To kill HIV-1 (AIDS virus) a contact time of 10 minutes at room temperature must be allowed. **Disposal of Infectious Materials:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile

4

areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

General Information: Proven effective as a disinfectant by the following tests: AOAC (use dilution test method) in conformance with the 14th Edition 1984. All dilutions at 1:256. The following organisms tested at 1,000 ppm water hardness as calcium carbonate and 10% blood serum as organic soil: •Vancomycin resistant enterococcus faecalis (VRE) ATCC #51299 •Mycobacterium bovis (BCG) ATCC #35743 AOAC Tuberculocidal Test •Staphylococcus aureus, Methicillin resistant (MRSA) ATCC #25923 •Salmonella paratyphi B ATCC #9281 •Staphylococcus aureus ATCC #6358 •Salmonella schotmeuelleri ATCC #8759 •Enterobacter aerogenes ATCC #13048 •Streptococcus pyogenes ATCC #19615 •Salmonella typhimurium ATCC #13311 •Shigella sonnei ATCC #25931 •Klebsiella pneumoniae ATCC #4352. *The following viruses tested on inanimate environmental surfaces. Tested at 1,000 ppm water hardness as calcium carbonate and 10% blood serum as organic soil: •Vaccinia Virus ATCC # VR-325 •Human adenovirus ATCC # VR-5 •Human Immunodeficiency Virus, HTLV-IIIB strain of HIV-1 (AIDS virus). This product has also been tested according to AOAC use dilution test methods and proven effective as a disinfectant against the following organisms at 500 ppm water hardness as calcium carbonate and 5% blood serum as organic soil. All tests done in accordance with the 14th Edition, 1984. All dilutions at 1:256. •Trichophyton mentagrophytes ATCC #9633 AOAC Fungicidal Test •Escherichia coli ATCC #11228 •Salmonella enterica ATCC #10708 •Pseudomonas aeruginosa ATCC #15442. *The following Viruses tested on inanimate environmental surfaces. Tested at 500 ppm water hardness as calcium carbonate and 5% blood serum as organic soil: •Herpes simplex Type 1 •Human Influenza A/Hong Kong Virus.

5

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Commercial Use:

PESTICIDE STORAGE: Store only in original container away from heat or open flame. Keep container closed when not in use. Storage must be secured sufficiently to make product inaccessible to children or persons unfamiliar with its proper use. **PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank for disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available, or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke.

Household/Residential Use:

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Securely wrap original container in several layers of newspaper and discard in trash or offer for recycling if available.

Manufactured for: RBR Productions, Inc.
