

FIFRA Section 24(c) Special Local Need Label

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF HAWAII

For Control of Acacia Psyllid on Existing Acacia Koa Plantations

MOVENTO®

EPA Reg. No. 264-1050

SLN. No. HI-130002

THIS LABEL IS VALID UNTIL AUGUST 27, 2018 UNLESS OTHERWISE AMENDED, WITHDRAWN, CANCELED, OR SUSPENDED.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. **Before using this product, read and carefully follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.**

IMPORTANT

Bayer CropScience has not investigated the use of Movento for potential adverse interactions with any other crop protection or fertilizer products used in koa production. Therefore, adverse effects arising from the use of MOVENTO on koa production cannot be predicted and are therefore solely the responsibility of the User. This product is sold subject to the Conditions of Sale set forth on the container label.

ACACIA KOA GROWN FOR PLANTATION PRODUCTION

| Pests Controlled | Rate fluid ounces/Acre |
|------------------|---------------------------|
| Acacia Psyllid | 8.0 – 10.0 |

Restrictions

Minimum interval between applications: **7 days**

Maximum MOVENTO allowed per year: **20.0 fluid ounces/Acre**

Do not graze livestock in treated areas or use any components of the treated crop as food or feed.

MOVENTO may be applied only to koa trees less than 5 meters tall. Trees must not be in flower, and application must occur at least three weeks before flower production.

Applications may only be made to trees in existing koa plantations in locations listed below.

Pahala: 19.221142 / -155.499667 (lat/long)

Paauilo: 19.985981 / -155.365125 (lat/long)

Hilo: 19.460744 / -155.334931 (lat/long)

Applications

Time application when insect populations begin to build and before a damaging population becomes established. Apply specified dosage as a broadcast or directed spray to infested area insuring thorough coverage through properly calibrated ground or aerial application equipment. Aerial application of MOVENTO may result in slower activity and reduced control relative to results from ground application. MOVENTO must be tank-mixed with a spray adjuvant / additive having spreading and penetrating properties to maximize leaf uptake and systemicity of the active ingredient within treated plants; please contact your local Bayer CropScience representative or PCA for specific recommendations by crop.

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577

For PRODUCT USE Information Call 1-866-99BAYER (1-866-992-2937)

As with any crop-protection product, always read and follow label directions.

For additional information call toll-free 1-866-99BAYER (1-866-992-2937).
