DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PINEAPPLES

A non-food use on pineapple plants for rapid production of pineapple planting material.

HOW AND WHEN TO USE: Apply as a topical spray on mature pineapple plants at time of forcing, up to 7 days after forcing. Follow the present label direction for the forcing agents in use on pineapple. (Note that Ethylene forced plants are not responsive to Maintain® CF125.) A second application, including forcing, may be made after an interval of 10 to 12 days.

RATES FOR EACH APPLICATION: 4 to 8 pints of Maintain® CF125 (1/2 lb to 1.0 lb. active material) in 200 to 300 gal. per acre. Maintain® CF125 contains 1.0 pound per gallon active ingredients.

HARVESTING: Harvest sliplets (planting material) at optimum size and development after treatment with Maintain® CF125.

Do not use treated pineapple plants for feed or forage.

This label is valid until **10/27/2013** or until otherwise amended, withdrawn, cancelled, or suspended.

EPA SLN No. HI-980007

Date Issued: **October 28, 2008**

Expiration Date: **October 27, 2013**

All application directions, restrictions and precautions on the EPA Registered label are to be followed. This label must be in the possession of the user at the time of the pesticide application.
