

DISABILITY AND COMMUNICATION ACCESS BOARD

PLAN OF ACTION
(July 1, 2011 to June 30, 2012)

Approved: July 21, 2011

OVERVIEW AND INTRODUCTION

The Disability and Communication Access Board is comprised of seventeen volunteer (17) members appointed by the Governor. The members include persons with disabilities, parents or guardians of persons with disabilities, public and private providers of service, and other professionals with knowledge in the areas for which the Board has rulemaking authority. The Board was created to provide for more efficient coordination of State efforts to comply with disability access and civil rights laws through outreach and voluntary compliance. The Board has rulemaking responsibilities for administrative rules for facility access, communication access, and accessible parking.

Although the most well-known civil rights law affecting people with disabilities is the Americans with Disabilities Act, there are many others at the federal level (most notably the Federal Fair Housing Act, the Air Carrier Access Act, the Architectural Barriers Act, the Rehabilitation Act of 1973, and the Individuals with Disabilities Education Act), State level, and county level that impact the daily lives of people with disabilities.

The functions of the Board are as follows:

- Establish administrative rules for the design of buildings, facilities, and sites by or on behalf of the State and counties in accordance with Section 103-50, Hawaii Revised Statutes; approve site specific alternate design requests when an alternate design provides equal or greater access.
- Establish administrative rules for the utilization of communication access services provided for persons who are deaf, hard of hearing, or deaf-blind in State programs and activities. Guidelines include, but are not limited to, determining the qualifications of interpreters who may provide services, the amount of payment to interpreters, and the credentialing of interpreters who do not hold national certification via a State screening process.
- Administer the Statewide program on parking for disabled persons, in accordance with Part III of Chapter 291, Hawaii Revised Statutes.
- Serve as public advocate of persons with disabilities by providing advice and recommendations on matters relating to access for persons with disabilities, with emphasis on legislative matters, administrative rules, policies, and procedures of the State and county governments.
- Review and assess the problems, needs, and the availability of adequate services and resources for persons with disabilities in the State with regard but not limited to employment, education, health, social services, recreation, civil rights, public facilities, housing, vocational training and rehabilitation, and other matters pertinent to the well being and independence of persons with disabilities.
- Coordinate the efforts of the State to comply with the requirements of the Americans with Disabilities Act for access to services, employment, telecommunications, and facility and site design.
- Provide technical assistance and guidance to, but not limited to, State and county entities in order to meet the requirements of state, federal, and county laws providing for access to persons with disabilities through public education programs and other voluntary compliance efforts.
- Provide review and recommendations on all State and county plans for buildings, facilities, and sites in accordance with Section 103-50, Hawaii Revised Statutes.

While people with disabilities, approximately 20% of our population, are the beneficiaries of the Board's work, many of our activities are directed to other entities and individuals, including government (State and county), private service providers, employers and human resource personnel, architects and other design professionals, families, and the general public.

The purpose of this **Plan of Action** is to formalize the Board's philosophy that underlies its policy statements, and to set forth the goals and objectives that guide its actions for the period July 1, 2011 to June 30, 2012.
