

Poison never looked so good to a young child.

Almost half of the calls to the Hawaii Poison Center are for children under 6 years of age.

NO GET HURT Hawaii

To protect your child:

- Use child safety locks
- Keep medicines out of sight and reach
- Don't leave household products out unattended while you're using them
- Properly dispose of old medicines and cleaning products
- Don't take your medication in front of young children. They might try to copy you.
- In the event of a poisoning emergency, contact the **Hawaii Poison Center at 1-800-222-1222.**

Injuries are preventable.
