Data Highlights

❑ Demographics

Ethnic distribution for both the State and the County showed a decrease in Caucasians and an increase in Hawaiians when comparing 1990 to 2000. However, the percentage of Hawaiians in the County was notably larger than that of the State (30.2% vs. 22.1%). The County showed a more definite increasing ethnic trend over the ten year period for Filipinos and those in the 'other' category.

The resident population density for the County was considerably less than that of the State. Both increased in population density over a ten-year period but the County density per sq. km. growth was half that of the state (3% vs. 6%).

❑ Social Profile

Since 1994, Hawaii County has had a lower rate of divorces and annulments than the State as a whole.

In 2000, persons in 18% of Hawaii County homes spoke other than English at home whereas the State percentage was 27%.

Since 1992, child abuse rates per 1000 children 0-17 years of age are remarkably higher than the statewide rates.

Elder abuse rates per 1000 adults for those 60+ have been remarkably higher than the State rate for nine of the last ten years for which data are available.

❑ Economic Profile

Hawaii County shows almost a doubling of self-employed (6.6% to 12.0%) from 1990 to 2000 whereas the statewide data shows only a 1 percentage point (6.6% to 7.6%) increase in this category.

In 2000, Hawaii showed a higher proportion of self-employment or unpaid family employment than the State percentage (12.7% vs. 8.5%).

Individual per capita income for Hawaii in 2000 was 73% of the State income.

The proportion of female-headed families with children under 18, below poverty level, declined from 1989-1999, but remained 25% higher than the State rate.

The proportion of those without health insurance followed the State's downward trend from 1998 to 2000, but the rates remained several percentage points higher than the State's rates.

The median value of owned homes in Hawaii County in 2000 was 56% of the State median value – State = \$272,700 and Hawaii = \$153,700.
