### Summary of Changes from Earlier Public Reports:

This summary contains a general description of the changes, if any, made by the developer since the last public report was issued. It is not necessarily all inclusive. Prospective buyers should compare this public report with the earlier reports if they wish to know the specific changes that have been made.

This Sixth Supplementary Public Report is to be used in connection with the sale of apartments 219-3 and 219-5.

Since the issuance of the Fifth Supplementary Public Report for the Isles of Diamond Head Beach on August 12, 1988, the Developer reports that a new escrow agreement has been entered into and that a title update reflects certain changes including a new mortgage. As noted in the Fifth Supplementary Public Report, certain statements in the section entitled "Encroachment" and Diagram "1" in the Fourth Supplementary Public Report were not accurate, inasmuch as the State of Hawaii did not claim to own any of the lands within the Project. To correct this inaccuracy, the following changes were made in the Fifth Public Report:

1. The third and fourth sentences of the "Encroachment" section in the Fourth Supplementary Public Report have been deleted.
2. Diagram "1", referred to in the "Encroachment" section in the Fourth Supplementary Public Report, has been deleted.

In addition, the encroachment on State lands of the structures referred to in Exhibit "G" of the Fourth Supplementary Public Report were remedied by the removal of the structures. Therefore, the following changes were made to eliminate references to this previous encroachment problem:

1. Delete reference to Exhibit "G" (letter of February 24, 1981 from State Department of Land and Natural Resources).
2. Delete first full paragraph of the "Encroachment" section in the Fourth Supplementary Public Report.
3. Delete last full paragraph of Exhibit "B", which had described need to amend Declaration in the event the encroachment problem persisted.
4. Delete Exhibit "G".

The Developer presents that the information on Maintenance Fees in Exhibit "D" herein is currently accurate.

## GENERAL INFORMATION ON CONDOMINIUMS

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of Hawaii's "Horizontal Property Act" (Chapter 514A, Hawaii Revised Statutes) must be followed.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

Common elements are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called limited common elements and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged, or encumbered, and they may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Some condominium projects are leasehold. This means that the land or the land, building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessees (apartment owner/tenant) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including any improvements paid for by the lessees; or (2) remove or dispose of the improvements. The leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including any improvements placed in the apartment by the lessee.

### Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or an officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without a vote of the owners. Some of these actions may significantly impact the quality of life for all apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is vitally important to all apartment owners that the transition from developer to owner control be accomplished in an orderly manner and in a spirit of cooperation.
